

November 5th, 2019

To: Members of the Haverhill Township Zoning Board

Regarding: McGuire proposal

As constituents of Haverhill Township and the neighbors most impacted by the McGuire proposal we want to let you know that we are unanimously and adamantly opposed to the proposal.

We would be happy to share our concerns which include lack of suitable infrastructure, public safety, safety of the patients and service providers, the longstanding arrangement that Haverhill is an agricultural township, traffic concerns and several others.

We would like to be made aware of any hearings, meetings or other information around the proposal as well as any steps we may need to take to formally document our opposition.

We greatly appreciate your attention to this matter and your respect for the concerns of your constituents.
